this is an open access book background financial globalization plays a huge role in promoting the development of the world economy and the optimal allocation of world resources stimulates the accelerated development of the international division of labor and increases the international flow of production factors such as industrial transfer capital transfer and technology transfer it enables developing countries to make up for the lack of their own capital and technology and obtain industrial evolution technological progress and institutional innovation thereby accelerating the speed of economic

development it also enables developed countries to open up cheap labor raw material markets and broad consumer markets prolonging product value more profits ease the economy the contradiction of stagflation and restore economic growth present situation at the current stage the overall environment of the international financial market is relatively stable and the market environment has been improved to some extent however due to the complexity and diversity of the world economy coupled with the national characteristics of some countries there is great uncertainty in international policies which has greatly affected the stability of the international financial market in addition the current international environment is changing the conflict between russia and ukraine the epidemic and the taiwan issue have all had an impact on the international economic situation this is also the difference between this conference and previous conferences we hope to have a deeper discussion on the current situation objectives of this conference the 9th international conference on financial innovation and economic development icied 2024 aims to accommodate this need as well as to 1 provide a platform for experts and scholars engineers and technicians in the field of financial innovation and economic development to share scientific research achievements and cutting edge technologies 2 understand academic development trends broaden research ideas strengthen academic research and discussion and promote the industrialization cooperation of academic achievements 3 promote the institutionalization and standardization of financial innovation and economic development through modern research 4 increasing the number of scientific publications for financial innovation and economic development conference information as an annual conference held successfully in the past 8 years the 9th international conference on financial innovation and economic development icied 2024 will be held in ningbo on january 12 14 2024 the conference sincerely invites experts scholars business people and other relevant personnel from domestic and foreign universities research institutions to participate in the exchange we warmly invite you to participate in icied 2024 and look forward to seeing you in ningbo china

modern portfolio theory and investment analysis 9th edition examines the characteristics and analysis of individual securities as well as the theory and practice of optimally combining securities into portfolios it stresses the economic intuition behind the subject matter while presenting advanced concepts of investment analysis and portfolio management the authors present material that captures the state of modern portfolio analysis general equilibrium theory and investment analysis in an accessible and intuitive manner

inhaltsangabe introduction the following paper will outline the suitability of technical analysis ta regarding selective chosen tools for performance increase versus the classic buy and hold strategy bhs these two approaches beside the fundamental analysis fa are the foundations used by investors concerning their investment strategy and differ substantially in their nature thereby this dissertation will investigate whether the application of active ta is a productive approach yielding to favourable results and having the ability to outperform the passive bhs to achieve substantive results the comparisons of performances will be stretched to 21 years and are based on the following three indices which differ significantly concerning their location volume and importance standard poor s 500 s p 500 german stock exchange dax japanese nikkei 225 n225 however to reinforce the impression of the analysis semi annual and annual performances will also be measured this is an essential element of the comparisons as due to the nature of ta the seed capital of 1 000 000 sterling will not be invested at all times in this case the capital will yield the current base rate of interest of the bank of england minus 0.5 per

annum the measurements will be assessed by means of three established indicators and oscillators indicators exponential moving averages 200 days and 100 days moving average convergence divergence bollinger bands oscillators relative strength index slow stochastic momentum ta can be divided into chartism and the statistical based ta although a clear demarcation between these groups is not given in reality as most proponents of ta combine both techniques the vast majority of this dissertation will only reflect the latter this can also be justified as chartists predict future price developments based on trend lines patterns and formations murphy 1999 states that all chartists are technical analysts but not all technical analysts are chartists due to the lack of standardised price characteristics chartism implies a high degree of subjectivity therefore the absence of operational ability of this sub area would not lead to a feasible analysis concerning an increase in performance we maintain that financial markets are either moving in boom or bust cycles bull or bear markets the classic bhs based on the investment legend benjamin graham has generated high profits in the

corporate governance and institutional investment focuses on corporate governance and the legal nature of institutional investors in the corporate system its aim is to expose the complexity of the relationships that exist between companies on one side and their shareholders stakeholders and monitors on the other various types of investors including trusts and companies are discussed including how they function under different legal guidelines the role of investment managers acting on the behalf of institutional investors is examined as well as why fund managers overlook the corporate governance problems of their investee s companies when they are performing well financially this complexity is one of the main reasons why corporate scandals still occur despite the existence of an extensive academic literature on corporate governance and the sustained efforts by the corporate community around the world an analysis of how the monitoring role of institutional investors became effective in the light of company law and trusts is presented by using a comparative model involving the u k the u s a pakistan and continental europe financial scandals of the last decade such as enron northern rock and the banking crisis are also examined finally a review of regulatory approaches which rely upon formal rules and institutions backed by the state legal system and non regulatory approaches emphasizing the market mechanism and contractual arrangements is included
