building and expanding upon the prior edition of essentials of health justice the new second edition of this unparalleled text explores the historical structural and legal underpinnings of racial ethnic gender based and ableist inequities in health and provides a framework for students to consider how and why health inequity is tied to the ways that laws are structured and enforced additionally it offers analysis of potential solutions and posits how law may be used as a tool to remedy health injustice written for a wide interdisciplinary audience of students and scholars in public health medicine and law as well as other health professions this accessible text discusses both the systems and policies that influence health and explores opportunities to advocate for legal and policy change by public health practitioners and policymakers physicians health care professionals lawyers and lay people

sentencing policy and social justice argues that the promotion of social justice should become a key objective of sentencing policy advancing the

argument that the legitimacy of sentencing ultimately depends upon the strength of the relationship between social morality and penal ideology it sheds light on how shared moral values can influence sentencing policy at a time when relationships of community appear increasingly fragmented arguing that sentencing will be better placed to make a positive contribution to social justice if it becomes more sensitive to the commonly accepted moral boundaries that underpin adherence to the rule of law the need to reflect public opinion in sentencing has received significant attention more recently with renewed interest in jury sentencing stakeholder sentencing and the involvement of community views when regulating policy the author however advocates a different approach combining a new theoretical focus with practical suggestions for reform and arguing that the contribution sentencing can make to social justice necessitates a fundamental change in the way shared values about the advantages of punishment are reflected in penal ideology and sentencing policy using examples from international comparative and domestic contexts to advance the moral and ethical case for challenging the existing theories of sentencing the book develops the author's previous theoretical ideas and outlines how these changes could be given practical shape within the context of sentencing in England and Wales it assesses the consequences for penal governance due to increased state regulation of discretionary sentencing power and examines the prospects for achieving the kind of moral transformation regarded as necessary to reverse such a move to illustrate these issues each chapter focuses on a particularly problematic area for contemporary sentencing policy namely the sentencing of women the sentencing of irregular migrants sentencing for offences of serious public disorder and sentencing for financial crime

justice and harmony have long been two of the world's most treasured ideals but much of modern moral and political philosophy puts them on opposite sides of the divide between liberal theories of the right and communitarian theories of the good Joshua Mason argues that the encounter with their Chinese counterparts *zhengyi* and *hexie* can overcome this opposition revealing a pattern that reframes justice and harmony as mutually interdependent concepts in a three part framework of root harmony *benhe* harmonic justice *heyi* and just harmony *zhenghe* broadly surveying the histories of Western and Chinese moral and political philosophies justice and harmony cross cultural ideals in conflict and cooperation explores our cross cultural conceptual inventories and develops a comparative framework that can overcome entrenched binary oppositions and reconcile these grand global values

this book examines the regulatory environmental financial socio legal and safety aspects that shape offshore energy infrastructure projects and their operation the marine environment holds vast resources to provide energy solutions for humankind the sustainable development of such offshore energy resources is one of the most pressing challenges posed by the energy transition whereas offshore hydrocarbons have been explored and extracted for more than a century the offshore renewable industry is rapidly expanding with lawmakers increasingly looking to the oceans for significant energy development offshore spaces now amalgamate mature and emerging energy industries creating a pressing need to identify synergies and regulatory challenges however and despite the pivotal role offshore energy is to play in the future the interaction synergies and conflicts arising between these regulatory socio legal environmental and financial dimensions of offshore energy are often not discussed within the energy law scholarship this book aims to fill this evident gap in existing energy law research to distil critical legal lessons from traditional offshore energy sectors to encourage best

practice regulation of offshore energy net zero industries offshore energy law provides a functional analysis that covers the life cycle of offshore energy developments including renewable and hydrocarbons within the broader context of the energy crisis and energy transition debates written and edited by leading global offshore energy experts the book brings together a global and sectoral comparative perspective to central offshore energy topics such as licensing socio legal challenges and opportunities safety and ecological governance and the use of marine maritime spatial planning

the rhetoric of social justice is commonplace but increasingly it means little more than a tag line or a punctuation point reconstructing social justice presents a new framework for social justice that will change the way people think about social justice and change the way people implement social justice this book carves out an intellectual and practical space for social justice that is distinct from political legal and economic spheres while emphasizing a distinct domain for social justice the author then makes sense of its healing role in terms of the polity economy technology and religion drawing from a rich supply of classroom experiences her research on mosque controversies after september 11 2001 and then the global examples of truth and reconciliation commissions frederking invites the reader to think about the relevance of social justice from the micro to the macro level rather than a set of policy outcomes or ideological positions social justice is a process of social accountability that demands honest and transparent engagement while disagreement is likely and controversy inevitable this social justice process reaffirms our connectedness and moves us forward as a collective
