a humorous takeoff on science texts and lab manuals

chloe never quite believed her friend s stories about the cat lady but when a dare goes horribly wrong she finds out that the truth is more terrifying than anyone has ever imagined

the whistle blower on corrupt science science went corrupt the day edmund halley in 1705 told the world he used the physics formula of his friend isaac newton to calculate the route that halley s comet took and the time it would arrive this was where science went crooked a position that went on ever since because that same dishonesty is still present in newtonian science halley calculated the time periods since 1066 at the battle of hastings and found a comet was mentioned every seventy six years this was very ordinary for a man of his class so he had to get far cleverer than backdate history to get a time frame so he really got clever and conspired with the biggest fraud in science ever since the man that stole all the physics doctor hooks invented the man who even got kepler figures wrong the man called isaac newton halley said he used the formula of newton to calculate the route the comet took this says he used mass to calculate how the comet came to the sun according to newton s science the sun s mass pulled the comet and the comet s mass pulled right back and in this way the comet came to the sun i don t go into the comet as such in this book but i do in other books in this book i show how newtonian science started to go corrupt in 1705 with one conspiracy to cheat and became the corrupt myth it now developed into how do i know halley did not use the mass pull mass idea it is because if he did so then how did he calculate that the comet was cyclic or that it returns every seventy six years if mass pulled the comet to the sun what then pushed to comet back into outer space his big ambition was to prove the comet comes and goes but if mass makes the comet come what pushes the comet back you know what is the biggest fraud that came to be called newtonian science the most brilliant minds on earth this past three hundred years failed to asks this simple question if mass pulls the comet closer what pushes the comet away if mass forms the force of pulling and pulled the comet closer then what pushed the comet back into the darkness of the beyond how did he know the mass of halley s comet nobody then asked questions no one asks uneasy question except me i show the fake science we have newton and halley got away with corrupt science if you wish to prove wrong i challenge you to prove that

newton is correct today just like it was and keeping the trend go on modern newtonians gets away with even more corrupt science than anyone can imagine

a conspiracy in science in progress you are going to read about how science applies a system of mind control and thought processing every conspiracy that science ever thought up such as the critical density conspiracy or the dark energy conspiracy or any conspiracy connected to science is in place to protect this theory that those teaching science hides from anyone outside physics from becoming known the mother conspiracy is in place so that students in physics are brainwashed by instigating the deliberate sanctioning of mind control on students through their practising of enforcing thought control they unleash on students i prove that the mother conspiracy is in place i reveal the mother conspiracy and i show why it is in place i show how every student including you reading this has been brainwashed to believe science is true and to believe in science i prove the universe is formed as singularity and contains only singularity in many forms thereof

revealing corrupt science i spent a lifetime uncovering information science hides for centuries my approach to science is revealing to the point and new it is your choice which you wish to read to get the same ideas about a new approach to stars galaxies and the universe read how the cosmos works when using the formula kepler gave us in these books i make a financially rewarding offer of investment to prospective investors from where i stand my work is too big or i am too small to bring about the awareness i have to provoke to allow change in science to come about i need your help to get my work advertised so that people can see what my work entails in this there are 4 identical books namely to inform to reveal and to expose and uncovering the 1 is better developed than the other or the 1 is less informing than the other the page numbers will tell which is which reading which one is your choice because we all can cope with different volumes of information and divulge more or less facts given as new information
